Take it easy and follow our suggestions to reduce the sickness effects. The altitude problem is very common for everyone who arrives at the high-altitude region from lower altitude area, but some are affected seriously and some are not, so there is certain way to prevent it or minimize its effect by preparing before you go to highlands. Here we have listed some tips that we had experiences in the past years.

1. Mental preparation and altitude sickness also can help psychological, so you should take it very normal and keep your mind in a comfortable state.
2. Keep your body physically fit, so exercise regularly and make physically fit.
3. Sleep well and rest well on the day before your arrival to high altitude.
4. Take everything slowly for the first couple of days when you arrive in high altitude region, walk slowly and try to sleep at a lower altitude first.
5. Drink enough water and avoid alcohol.
